

Ridge Week 4 25/1/21					
	Monday	Tuesday	Wednesday	Thursday	Friday
9 a.m. Teams meeting					
Maths Warm Up	Big maths Beat that challenge	Big maths Beat that challenge	Big maths Beat that challenge	Big maths Beat that challenge	Numeracy Ninjas
Maths Activities	Video or ppt	Video or ppt	Video or ppt	Video or ppt – planning a zoo	Assessment + zoo
Break					
English Activities	Using parenthesis	Factfile	Plan account	Write account	Edit account
Reading activities <i>All in one document</i>	Spelling video activity	60 second read + extension task if wanted	Free reading + book review	Daily news + extension task if wanted	Handwriting
Spelling : Video on Monday + 10 minutes practice each day					

Maths Warm Ups

This week I have given the children some Big maths... beat that challenges. The idea with these is that you time 100 seconds and answer as many as you can in that time. It is a selection of addition and multiplication questions to keep these key facts ticking over.

Maths this week

This week, the focus is on area and perimeter which needs lots of images to support the teaching. Therefore, I have included links to White rose maths videos within my videos. Last week, I think people struggled to access this on one of the days so I will send the links to those videos alongside the links to my videos.

It has been so lovely to see everyone on our Teams meetings. We will continue to do these every day next week. For Thursday and Friday's maths, the children have been asked to design a zoo – we have done this before in class so they should be familiar with the process. I will, however, explain this task to them on the Teams meeting on Thursday as best as I can in the time. **Before they continue with their zoo on Friday, I would like them to complete a test on what we have covered so far. They can take as much time as they need to complete this assessment but if you could allow them to complete it independently (apart from reading the questions) that would be brilliant. If you could also send me the time it took to complete and their score then that would be really useful.**

Phone Calls

Hopefully everyone will be able to join our Teams meetings at least a few times a week to have contact with each other and with me. However, as I have said for the last few weeks, if anyone would like a phone conversation, I am available in school on Thursday afternoon or you can email me to arrange a different time. If anyone would like to schedule a regular call for your child, then this can also be arranged. I am always at the end of an email or the phone

so please contact me whenever you need me. If I do contact you, it will be from a withheld number so I promise I'm not trying to sell you anything! 😊

Have a lovely week.
