

Ridge Week 3 18/1/21					
	Monday	Tuesday	Wednesday	Thursday	Friday
<b>Maths Warm Up</b>	Times table challenge	Times table challenge	Times table challenge	Times table challenge	Numeracy Ninjas
<b>Maths Activities</b>	Video or ppt	Video or ppt	Video or ppt	Video or ppt	Video or ppt
<b>Break</b>					
<b>English Activities</b> <i>(All on English Powerpoint)</i>					
<b>Reading activities</b>  <i>All in one document</i>	Spelling video or ppt	60 second read + extension task if wanted	Free reading or read Picture newspaper	Daily news + extension task if wanted	Handwriting
<b>Spelling : Video on Monday + 10 minutes practice each day</b>					

Hi everybody,

I hope you all had a successful week last week. Thank you for all the work that has been sent over. We really enjoy seeing it.

I understand that some children are flying through the work without the distraction of the classroom so I have added extension tasks wherever possible. Also remember, they can complete as much topic homework as they would like (see topic homework sheet sent previously) There are also daily education programs on BBC every day for Primary aged children and a range of videos on BBC bitesize if you need anything extra.

### **READING**

For Wednesday's reading, I have added a copy of the Picture News paper to the website if any of the children are interested in reading it. There is also a Picture News activity (like the pet one from last week) but this is an extra activity this week. We would also encourage the children to read independently at least 3 times a week outside of these sessions.

### **SPELLING**

This week, there is a Powerpoint or video for the children to watch on Monday to get them started and then we ask that they practise these words every day for around 10 minutes. They will then apply this in their handwriting activity on Friday.

## **MATHS**

### **WARM UPS**

The warm up sheets this week are a times table challenge sheet. The idea is that they complete the sheet whilst timing themselves and then record their time when they are finished. For some of the children, this could take a very long time so we would recommend that you set a timer for 2 minutes and answer as many as possible in the time.

### **VIDEOS**

I'm really pleased that everyone is finding the Maths videos useful and I will continue to make them as often as possible. I will send you the link to Youtube for these daily as they cannot be published on the website.

Please can you ensure that your child is recording their work as they watch the video on a separate piece of paper. I have made a separate document which includes all of the children's Try it, Use it and Prove it tasks so if you wanted to print these for them to record their work on, you could. I have also had people asking for Powerpoints with no answers on so I have made a version with the answers at the end. If you would like a copy of these, then please email me separately as I don't want to bombard people with too many documents! I know this can be very overwhelming!!

As always, please email me if you have any questions. I am available in school on a Thursday afternoon if you would like a phone conversation or email to arrange a better time if necessary. This can be to talk to you or your children.

Many thanks,

Miss Bence and Mrs Ward
